Senators Approve Housing Bill

Measure Passes By Voice Vote

Adds Aid For Farm Building

WASHINGTON — (AP)— The Senate today passed the Taft-Ellender-Wagner long range housing bill designed to spur home building in America. Passage was by a voice vote.

The Senate passed the bill after adding a $268,500,000 farm housing program.

By a voice vote, the Senate adopted an amendment by Senators Young (R-ND) and Russell (D-Ga) providing for federal subsidies and loans to farmers.

This action came shortly after approval of an amendment authorizing the government to pay half the cost of houses for severely paralyzed veterans.

The farm housing program would be under direction of the agriculture department. Loans would be up to 33 years at not more than four per cent interest.

The goal of the bill is building of 15,000,000 new homes in the next 10 years.

Sawyer Gets Cabinet Post

Ohioan Accepts Truman Offer

WASHINGTON —(AP)— President Truman today nominated former Ambassador Charles Sawyer of Ohio to be secretary of commerce.

Presidential Secretary Charles G. Ross said Sawyer's nomination probably will go to the Senate today, along with that of W. Averell Harriman to be "roving ambassador" under the European recovery program.

Mr. Truman offered the commerce post to Sawyer by long distance telephone last night after Harriman agreed to give up that position to take over the ERP job.

Ross said Sawyer telephoned Mr. Truman today from his home at Cincinnati to accept the appointment.

Ready to Fill Morgan Post

Possibility that a new service-safety director for Mansfield may be named late this week was hinted today by Ralph Hardy, Richland county Republican executive chairman.

Hardy said that Mayor Roy W. Vaughn had conferred with James Will, GOP central committee chairman, and himself that "a couple of Mansfielders are being considered for the job."

The position will be left vacant May 8 when the resignation of Emmett L. Morgan becomes effective.

Mayor Vaughn, out of the city until tomorrow, could not be contacted for comment.

Eight States Sign Compact

COLUMBUS —(AP)— Governors of the eight states participating in the Ohio river valley water sanitation compact may take part in a ceremonial signing at Cincinnati June 30.

Gov. Thomas J. Herbert has invited the following governors to attend: Thomas E. Dewey, New York; Earl C. Clements, Kentucky; James H. Duff, Pennsylvania; Clarence E. Meadows, West Virginia; William M. Tuck, Virginia; Dwight H. Green, Illinois, and Ralph F. Gates, Indiana.

Vote Memorable, Declares Pope

ROME—(AP)—Pope Pius XII, in a formal statement to the American press, said today the Italian elections "will be memorable in the annals of Italian history."

"An entire people," the pope said, "has given proof of its grave sense of civic duty and skies of Italy are brighter with hope . . ."

Diver Trapped By Muck

PORT RICHMOND, N. Y. —(UP)—A commercial diver was trapped today under tons of muck at the bottom of the Kill Van Kull, and the navy rushed seven divers to the scene in a dramatic race against time.

By telephone to his surface crew the trapped diver, Edward Christansen of Oyster Bay, N. Y., reported shortly afternoon in a faint voice: "I am getting very weak."

The first diver to go to the rescue, Sverre Hague, was brought to the surface after half an hour and reported "very rough going." He estimated that 15 tons of mud covered Christiansen when the sides of the cable trench in which he was working collapsed.

NAVY RUSHES AID

A navy rescue tug, carrying a battery of divers and rescue equipment, went to the scene off Staten Island. Christiansen was working in 30 feet of water.

A fireboat stood by prepared to use its pressure hoses to sweep away the muck, if necessary.

The diver was trapped shortly before 11 a. m. and reported the fact himself saying that he was "doubled up" and pleading with the surface crew to "hurry."

Town Ready To Welcome Good Friend

CHILLICOTHE — (AP) — Little Frankfort, O., (pop. 800) stepped up preparations today for the arrival next week of a very special guest from overseas.

She is Mrs. Mary Krijger of Houthem, Holland, wife of an irrigation engineer, whose tenderness of thought and action won for her an almost reverent spot in the hearts of the neighboring Ross county community.

Since V-E day she has spent most of her spare time caring for the graves of four Frankfort boys who fell in Holland, now buried in Margraten cemetery near her home.

Four Frankfort women will meet her when the liner Westerdam docks at Hoboken, N. J., April 26.

There will be a community reception and tea May 7. She is scheduled to speak at the Chillicothe Garden club May 11, the New Holland American Legion auxiliary May 14, and the Chillicothe Kiwanis club June 8.

On Memorial day she is to take part in dedication of Frankfort's memorial shaft to its war dead, along with Lt. Gov. Paul M. Herbert.

Mercury Dips To 34 In City

Spring returned to Mansfield today after an unexpected cold snap which dropped temperatures dangerously near the freezing mark last night. Low last night was 34.

At the same time, Weatherman C. G. Andrus of Cleveland, announced the pleasant news that "spring is about three weeks ahead of normal in Ohio."

During the past month, temperatures in Cleveland have averaged six degrees above the daily normal of 48 degrees, Andrus said. The Mansfield mercury climbed to an official 75 Tuesday. Today's noon temperature was 58 degrees with a warm sun promising warmer weather tonight and tomorrow.

Akron and Perry were hit by freezing temperatures early today when heavy frost was reported over most of the state. Very little damage, however, was expected to result.

Andrus said that the weather Ohioans have been enjoying is really "middle of May" weather.

Chief Still 'Checking' Gambling

'I'll Look Into It,' He Says

With gambling operations growing and spreading like a noxious weed in an uncared-for garden, Police Chief Jesse J Schwab said today "I'll check into it."

Questioned about the fact that the small-time gambling is becoming big time, with persons losing as much at $50 playing punchboards, the chief said he had no comment.

Chief Schwab announced early in February after gambling operations "mysteriously" ceased, that all forms of gambling were going to be kept closed down.

Eight weeks later the lid started to tilt and within two weeks more, nearly all types of gambling except horse betting, were back in operation—and openly.

When the lid first started to tilt, the chief said "I'll check into it." Today, a month later, he still was "checking into it."

He refused all comment to a series of questions concerning gambling operations other than to say tersely "I'll look into it."

Assailants Elude Police

Reuther Attack Still a Mystery

BULLETIN

DETROIT —(UP)— Police Inspector Joseph V. Krug dispatched three teams of detectives today to pick up three left-wing unionists for questioning about the ambush shooting of Walter P. Reuther, CIO United Auto Workers chief.

★

DETROIT—(AP)—Detroit police, ordered out on one of their greatest manhunts, checked scores of dim leads today in an effort to track down the would-be slayers of Walter P. Reuther.

Sifting through the pile of possibilities, officers questioned dozens of the friends and enemies the fiery union leader had made on his climb to the presidency of the CIO United Auto Workers.

But despite the offer of rewards totalling $117,900—perhaps the largest in the nation's history—real clues to the Tuesday night shooting remained rare.

Reuther himself, lying in new Grace hospital with his shattered right arm suspended in a traction cast, could offer few ideas.

He told Prosecutor James V. McNally, "I haven't the slightest idea," when asked who might have shot him.

Reuther's associates in the UAW pledged their all-out aid to police.

Michigan state police also assigned crack detectives to aid Detroit authorities in their search, while the FBI offered its complete laboratory facilities.

Court Hears Strike Cases

BUCYRUS—(AP)—Selection of a jury to try three Marion youths on charges growing out of violence in the North Electric company strike at Galion last summer and fall started in common pleas court today. The jury was expected to be completed tomorrow.

The three, Walter Foust, James Wilson, and Richard Gibson, are under indictment on charges of grand larceny, assault and battery, kidnaping, and operating a motor vehicle without the owner's consent.

They were accused of abducting two North Electric employes in a company truck just before its Galion plant was besieged for eight hours as a climax of a ten-week strike.

The United Automobile Workers (CIO) had called the strike.

The trials were scheduled for today, tomorrow, and Saturday. They were originally set for March, but Prosecutor Leo J. Scanlan said they were postponed at the company's request.

YMCA Makes 71 Presentations

11-Year-Old Named All-American Boy

Smiling Edward Benning, an 11-year-old member of the YMCA's Pioneer class, last night was presented with the All-American Boy trophy.

He accepted the trophy at the annual Parents' night in the YMCA before a gathering of 250 boys and their parents. Besides the victory trophy, he received a large "Y," and a certificate. The victory trophy was presented by last year's All-American boy, Jimmy Thompson.

Edward is the son of Mr. and Mrs. Edward A. Benning of 185 West Third street.

His awards were among 71 handed out following a covered-dish supper.

Second place in the All-American competition went to Billy Coffman, 10, son of Mr. and Mrs. Willard E. Coffman, 57 Hoffman avenue. He is a member of the Comrade class.

George Windsor, 11, of the Friendly Indians class, placed third. He is the son of Mr. and Mrs. Clarence E. Windsor, 150 East Third street.

Richard Beal and John Matthes placed second and third in the Friendly Indians class, Lazo George and Herbert Smith jr. in the Comrade class and Robert Bensinger and Ronald Pennypacker in the Pioneer class.

De Gasperi Tells Plans

ROME —(UNS)— Premier Alcide de Gasperi told Italian communists to cease their threats of violence today and promised major reforms which might even include collective farming.

The victorious premier for the first time outlined in full detail the program he has framed to perpetuate Christian government in the wake of communism's resounding electoral defeat.

De Gasperi, his moderate government backed by an absolute parliamentary majority for the first time, served notice of a more severe official attitude toward communism.

He demanded that the communist party give up its hidden stocks of arms and cease speaking of coming internal tension.

The premier's remarks were directed at Communist Chieftain Palmiro Togliatti, who declared earlier that the Christian Democratic victory at the polls was due to the "triple pressure and threats of American warmongers, the church, and the capitalists."

FRENCH MINERS STRIKE

LILLE, France — (AP) — One hundred and thirty thousand miners were reported on strike today in France's northern coal fields.

Park Gets 'Go Ahead'

Jury Sets $20,500 As Price For Land—

Another project in the Muskingum water shed conservancy district's $600,000 public park program received the "go ahead" yesterday.

Condemnation proceedings were completed on a 30-acre tract of land on U. S. Route 30 just east of the Charles Mill reservoir. A jury awarded Mrs. Belle Scott $20,500 for the acreage.

Bryce Browning, secretary of the board of directors of the conservancy district, said it would probably be a year before the land would be developed into a picnic and playground area.

He reported also that the bathing beach at the pleasant Hill project is under construction but the water cannot be brought to full level until State Route 95 is relocated.

Browning added that the contract for the road relocation may be let this summer. As soon as that work is completed, the water can be brought to the full level, bath houses constructed, and the area opened to the public.

Salter Loses Court Appeal

COLUMBUS —(AP)— Executive clemency is Kenneth Salter's last hope to escape execution tomorrow for the chloroform, rape slaying of an 11-year-old Toledo girl.

Salter, 31-year-old Toledo printer, was denied a rehearing yesterday by the Ohio Supreme court.

He will die about 8 p. m. tomorrow in Ohio penitentiary's electric chair unless Gov. Thomas J. Herbert grants his appeal for clemency. Salter, convicted in the slaying of Barbara Dunn, sought rehearing on the grounds that when he administered chloroform to her June 1, 1946, he did not intend to kill her.

Kiwanis Launches City-Wide Project

'Chew Gum For Children,' Club Asks

Kiwanis launched today a project designed to start thousands of Mansfielders chewing gum to provide extra benefits to children.

Meeting at noon in the Mansfield-Leland, the club made plans to install hundreds of ball gum vending machines in stores and factories.

Profits would be used to help finance the Kiwanis child welfare program.

Under direction of 10 team captains, members deployed after the meeting to contact store and factory owners seeking permission to install the machines. Willis Carto is chairman of the project.

He explained that 650 Kiwanis clubs throughout the country have adopted the gum vending project. Depending on the community's acceptance, clubs have realized $60 to $200 a week.

"The 10 captains are very excited about it," Carto said. 'Some of them had made a number of contacts before today's meeting and we expect to be able to place about 300 of the machines."

Two dozen of the machines were displayed at the meeting at which George S. Lindberg of Lockport, N. Y, explained the program.

Carto said the Kiwanis board of diectors planned to use some of the gum funds to finance a week's at Happy Hollow camp for eligible children from the Children's Home.

Friendly House is a major beneficiary of the club's program.

Captains of the gum vending committee are Allen Knapp, Russell Alger, Harold Balyeat, Harry Sowash, Carlton Fernyak, Richard Stander, Nick White, Max Worthley, W. J. Toole and Otho McCormick.

So Virginia Fills Bacall Bathing Suit

HOLLYWOOD —(AP)— Lauren Becall refused to don a bathing suit for a Warner movie and was placed on the inactive list.

So what happens? Virginia Mayo gets the part. What's wrong with that? Not a thing, brother; not a thing.

Virginia says she's "most happy to fill the role." Most of the boys have made Virginia an 8-to-5 favorite to fill it, too.

Meanwhile, Lauren is boating with husband, Humphrey Bogart, and wearing, it's almost safe to assume, a bathing suit or something equally scanty.

Resentful Miners Obey Lewis Plea

Most U. S. Pits Again Operating

PITTSBURGH — (INS) — More than 90 per cent of the nation's 400,000 United Mine Workers reported to the pits today, obeying the appeal of their leader, John L. Lewis.

Despite bitter resentment over the $1,420,000 fine levied on the union and Lewis by Federal Judge T. Alan Goldsborough, miners across the nation voted almost unanimously to pick up their tools again.

Coal operators and UMW officials agreed that the turn out for the day shift this morning was near normal.

U. S. Steel corporation reported that all but one of its 14 "captive" mines reopened today, as compared with only two working yesterday, and that miners were expected to vote to return to that one today.

"Big Steel" also announced that production at its huge Clairton coke works, largest in the world, would be upped to 86 per cent today. Production was cut to 70 per cent yesterday.

Jones and Laughlin Steel corporation reported all of its mines working. Only two of the company's mines in West Virginia mined any coal yesterday.

Nearly all of the 15,000 miners in southern Illinois had returned to work, and all the mines at Rock Springs, Wyo., largest coal field west of the Mississippi, were working.

Only discordant note in the picture was a report that General Motors corporation would lay off 20,000 workers tomorrow because of a steel shortage.

Haifa Arabs Surrender

HAIFA, Palestine —(AP)— Jews virtually seized control today of Palestine's richest port city of Haifa after heavy all-night fighting.

Arab leaders sued for peace, asking British military authorities to mediate.

"It was a massacre," said one Arab spokesman. "It was another Stalingrad. We were not prepared."

By request of the British, the Jewish military force Haganah issued a cease-fire order shortly after noon.

A Haganah spokesman said terms handed the Arab National committee included:

Disarmament of all Arab forces and surrender of all arms.

Freedom of movement in all parts of Haifa with an end to sniping and roadblocks.

Delivery of all foreign Arab troops to Haganah for immediate deportation.

Surrender of all German nazis.

A 24-hour curfew during which the Arab disarmament would be carried out.

All persons to return to their normal pursuits.

A guarantee that Arabs could carry on their lives and work as free and equal citizens of Haifa and enjoy all municipal services.

Salter Loses Hope For Life

COLUMBUS—(AP)—Gov. Thomas J. Herbert today refused to intervene to save Kenneth Salter from death in the electric chair tomorrow night for the chloroform-rape slaying of 11-year-old Barbara Dunn of Toledo.

The pardon and parole commission made a report to the governor against any executive clemency. The commission held a hearing last week on Salter's plea for mercy.

The Ohio supreme court yesterday denied a rehearing of Salter's appeal.

Action Hit By Murray

Union Plans No Walkout

PITTSBURGH — (AP) — The U. S. Steel corporation today denied a wage increase demanded by the CIO United Steelworkers and announced price cuts totalling almost $25,000,000 for its products.

The price cuts are effective May 1.

Philip Murray, president of the CIO and the Steelworkers' union, asserted the corporation had denied "a just and much-needed wage increase." His statement emphasized, however, that the union would continue to live up to a no-strike pledge in a two-year contract, reopened for wage discussion.

Benjamin F. Fairless, steel corporation president, declared the unspecified wage increase had been denied and the price cuts effected "in an effort to halt further advances in living costs."

"We, in United States Steel, believe that costs and prices in general are too high today for the good of the nation. We are firmly of the conviction that American industry and labor should cooperatively do everything in their power to avoid further increases in costs, which, if permitted to occur, must result in higher prices for almost everything we buy."

'REAPING HARVEST'

Murray contended U. S. Steel "has been reaping" a "harvest of Profit" while employes have suffered by rising living costs. He added that the corporation has failed to demonstrate any lack of ability to pay a wage increase.

The president of the steel workers said U. S. Steel "belatedly proposes to decrease the prices of its products by an amount which it estimates at 25 million dollars annually."

Murray added:

"This so called price decrease does not even equal the $28,433,197 increase in certain of its products which Mr. Ben Fairless testified would result from the increases made in February, 1948 alone."

Fairless also said that "so far as possible the price reductions will be made applicable to steel products which have a more or less direct bearing upon the cost of living." He added:

"As illustrations, prices will be applicable to a number of steel products which are bought by the consumer in the form in which they are manufactured by our subsidiaries, such as nails, wire fence, wire netting, steel fence posts, steel roofing and siding, sheets for buildings, barbed wire and other wire products; and also a number of steel products which are converted by our customers into articles for ordinary use by homeowners, such as tinplate for the manufacture of cans, cold rolled strip and sheets for automobiles, stainless steel for refrigerators . . ."

GOP Rivals Stump Ohio

CLEVELAND—(AP)—Sen. Robert A. Taft and Harold E. Stassen pushed deeper into the state today in their quest for GOP presidential delegates.

The Ohio senior senator scheduled stops at Salem, Lisbon, East Liverpool, Carrollton, Cadiz and Steubenville.

Stassen, who seeks 23 of Ohio's 53 delegates to the Republican national convention, planned to fly to Toledo from Dayton.

He told a capacity audience of 3,000 at Dayton's Memorial hall last night the nation must strengthen itself without becoming militarized. The former Minnesota governor urged "a vigorous, firm and definite foreign policy" and a "dynamic and free domestic economy."

Taft addressed about 2,000 persons in Youngstown's Stambaugh auditorium last night and again called on his rival presidential aspirant to clarify his stand on campaign issues.

All-Inclusive Program Recommended

Group Favors Social Security Changes

WASHINGTON —(AP)— Proposals are piling up in Congress on ways and means of revising the nation's 13-year-old social security program.

The latest recommendations for an overhaul come from a citizens' advisory council on social security headed by former Secretary of State Edward R. Stettinius jr.

The Stettinius group recommends a multi-billion dollar program which would: (1) Almost double old age retirement payments and survivors' insurance, and (2) extend protection to almost every person in the United States.

They estimated the cost may run as high as $4,150,000,000 by 1955 to insure the people "a basic measure of protection against the major hazards of old age and death."

The council was named last September by the Senate finance committee. Its report last night is the result of six months of study.

Other studies have been made by the social security system itself, but no major changes have resulted.

A House ways and means subcommittee is studying the problem almost daily. But the group has not disclosed when it will make its recommendations.

One House bill would permit persons not protected by social security to get it by voluntary tax payments. Another would make social security benefits compulsory for all wage earners. The House has taken no action on either.

The council suggested security deductions be raised to one and one half per cent.

The council proposed extending the social security benefits to: farmers, businessmen, professional men, farm workers, domestics, members of the armed forces, federal civilian employes not covered by civil service insurance, railroad employes and employes of state and local governments (the latter by voluntary agreements).

Congress, however, has shown no tendency toward making the social security system cover all groups.

Birds Beat Cincy Reds On 5 Hits

By JOE REICHLER
(AP Sports Writer)

This is definitely a new year for Eddie Dyer and his St. Louis Cardinals.

Just a year ago today, Dyer's Redbirds were in the midst of one of their worst early season slumps. A heavy favorite to retain the championship they won in 1946, the Cardinals got off on the wrong foot and dropped nine straight games. As it turned out, the Cards lost the flag then and there.

But the picture is much brighter this year—thanks to some splendid pitching by Murry Dickson and George Munger.

Dickson gave up 10 hits in Tuesday's opener, but wound up with a 4-0 shutout. Munger allowed only five yesterday and registered a 5-2 victory over the same Cincinnati Reds. The two triumphs shoved the Cards into a first place tie with the Philadelphia Phils.

TWO IN ROW

Ben Chapman's Phillies made it two in a row over the Boston Braves, taking yesterday's game 4-3 in 13 innings. A pair of walks, a sacrifice, a wild throw and Granville Hamner's long fly produced the winning tally.

Bill Voiselle was yanked for a pinch hitter after seven innings. Ernie White, a refugee from the coaching box, allowed only two hits in 5⅔ innings of relief, but was charged with the defeat.

At the Polo Grounds the Giants flattened the Dodgers, 9-5, in one of the weirdest games in years. A crowd of 22,388 watched in amazement as five Brooklyn hurlers issued 13 free passes and gave up 11 hits, including two home runs.

Ralph Branca, Willard Ramsdell, Preacher Roe, John Hall and John Banta all tried their hands for the Dodgers.

NOT MUCH BETTER

The Giants' pitching wasn't much better. Sheldon Jones and Ken Trinkle also allowed 11 hits between them, including three home runs, but walked only four men.

Manager Leo Durocher used 24 players to set a record for most players in a nine-inning game. The Dodgers had the old one of 23 back in 1937.

Four Brooklyn second basemen—Jackie Robinson, Ed Miksis, Bob Ramazzotti and Gene Mauch—saw action. Robinson retired after five innings because of a bone bruise on his left hand.

The homers were supplied by John Mize and Sid Gordon of the Giants, and Arky Vaughan, two,

Walrick Gallops To Head Of Maple List With 631

By CHARLEY STINE

Paul "Horse" Walrick was up to his old pin-spilling tricks again last night on the Colony bowling alleys. Rolling with the Liederkranz in the City A league, Walrick easily won the honors of the best bowling job of the night with a 208-223-200—631.

For single game honors, however, he had to bow to Willie Hipp who finished with a blazing 238 game for a 597 series. Other individual honors went to Buck Forman, 183-211-222—616; Carl Heilman, 598; Phil Warga, 596; Art Hilborn, 590; Hal LeMunyon and Frank Burton, 587; Cliff Forsythe, 586 (including a 232 single game); Red Burges, 584, and M. Romal, 583.

Surprise of the results was the two out of three games which the tenth-place Drive-in-Ettes took from league-leading Mitsch's Corner store.

★

In the Victory league, top honors went to Denny Berry with a 526 series and Dan Bormuth with a 208 single game. Close behind Berry was Hal Robinson 523 and Jim Elliot 515.

The Home Interior team, led by Berry and Robinson, stormed into first place by taking three straight from Barnes Manufacturing while Ideal Panel was dropping three to Hartman Electric. The Interiors now hold a one game lead over Ideal.

★

Katie Keller walked off with all the honors in the Ladies league at Richland Recreation. Only a bad middle game kept her from the "500" circle, as she posted 180-120-196—496. Both her single and series scores were high for the evening. Lucille Kuratek was runnerup with 446 while Mary Garver turned in a 176 single game.

Final standings and prize list of the Colony alley's Industrial bowling tournament was announced today by Art Hilborn, manager of the lanes. Checks are now ready for the participants. All winners get medals and Lou Tridico, all events, will receive a bowling ball.

County Thin Clads Battle At Bellville

The Richland county track meet definitely will be held at Bellville on Saturday, May 1, it was decided at a meeting of school officials last night. All eight Class B schools in the county will participate.

The use of Senior high field was offered to the county schools, but it was felt that more interest would be shown if the meet was held at Bellville.

Another track meeting of the school officials will he held next Tuesday, according to Howard Hofacre, general chairman of the meet. Entrants will be listed at that time and a decision made whether or not to run preliminaries.

Hahn Inks Contract With Dodger Chain

Dean Hahn, 22-year-old Mansfield athlete, announced today that he has signed a contract with Brooklyn Dodger baseball organization.

Hahn, a left-handed first baseman, inked the contract Tuesday night in Columbus after he worked out three days with St. Paul of the American association. He will be assigned to one of the Class C clubs in the Dodger system and expects to leave Friday or Saturday.

DEAN HAHN

Jack Knight, Brooklyn scout, signed Hahn to a Class A contract. The Mansfield baseball and basketball star says he received "about $1,000 for signing with the Dodgers."

Hahn had been dickering with the Dodgers since he had a tryout under George Sisler in Zanesville in 1946.

STARS FOR GRAYS

During the past two seasons, Hahn starred with the Mansfield Grays' semi-pro baseball team and managed the club through the latter part of the 1947 season. He hit over .300 both years and appeared in several games as a relief pitcher.

Senior high school did not have baseball when Hahn was in school but he pitched three years for Dewey Durant's American Legion junior team. He got his initial taste of first basing in the Mansfield City league before going into service.

He spent two years in the Marines and played ball on Guam in 1945. He was still concentrating on pitching while in service.

Hahn's wife, Shirley, will remain in Mansfield.

F-H Boxers Split Two Marion Bouts

Friendly House boxers broke even in their two engagements on the Marion boxing card last night.

Gene Ayers, 124, won a split decision over Johnny Chambers of Columbus who had beaten him twice previously. Howard Carney, another Friendly House 124-pounder lost to Homer Humphrey of Columbus. Ayers, Carney and Chambers will all appear on the Friendly House card here next Tuesday.

Tygers Play Pair of Tilts

Coach Jimmy Lymper cast an eye toward the weatherman today with the hopes of getting some warm sunshine under which his Senior high baseball team might cavort for the next two days.

Lou Gregorio was to take mound for the Tygers at 4 p. m. today at Blue Goose diamond when they entertain Wooster in the first home game of the season. Gregorio worked five innings Tuesday.

Tomorrow, the Tygers go on the road again to meet Galion. Lymper was undecided on his starting pitcher, pending the outcome of today's game.

Team to Drill

The North Lake softball team will practice on the North Lake diamond at 10 a. m. Saturday. An invitation has been extended to players wanting tryouts.

Plymouth Nine Drilling For District Tournament

PLYMOUTH—With the county championship safely stowed away last fall, Coach Bob Lindsay of Plymouth is devoting much of this spring to working his baseball team into shape for the district tournament.

The joust will open May 7 at Old Fort. Four games will be played before that time to give the team a chance to sharpen their batting eyes.

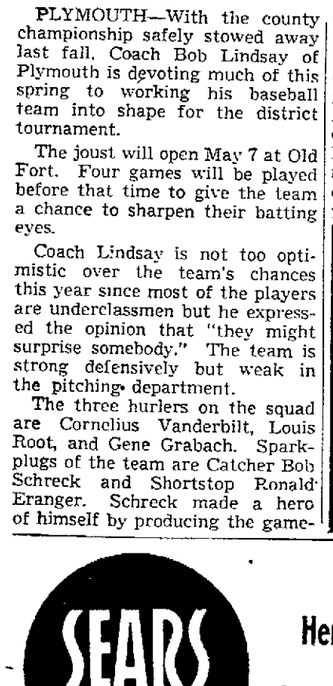

Coach Lindsay is not too optimistic over the team's chances this year since most of the players are underclassmen but he expressed the opinion that "they might surprise somebody." The team is strong defensively but weak in the pitching department.

The three hurlers on the squad are Cornelius Vanderbilt, Louis Root, and Gene Grabach. Sparkplugs of the team are Catcher Bob Schreck and Shortstop Ronald Eranger. Schreck made a hero of himself by producing the game-winning hit in the county finals last fall.

The season will open with a pair of games with Shiloh, the first game being played at Shiloh on April 27 and the other at Plymouth, May 6. Plymouth goes to Lucas on May 12 and will play a night game at Norwalk St. Paul's on May 14.

The body will arrive in Mansfield, Friday and will be removed to the Wappner Funeral Home where services will be held Saturday at 10:00 a. m. in charge of Rev. John G. Gensel. 3—In Memoriam

IN MEMORY of our dear husband and father, Chester Scott Tucker, who passed away five years ago today, April 22, 1943.
Our family circle has broken
A link has gone from our chain;
But tho we're parted for a while,
We know we'll meet you again.
Relentless death among us comes.
And bitter grief imparts.
It took our loved one from our home.
But never from our hearts.
In our hearts your memory lingers.
Always tender, fond and true;
Surrounded by friends we are lonesome,
In the midst of joy we are blue;
With a smile on our face, we've a heartache.
Longing my dear for you.
Sadly missed by wife, Catherine
Children.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Production Lines of Auto Industry Again Bog Down

DETROIT—(AP)—The average individual's chances for early delivery of a new automobile—at list price—still are anything but bright.

About the time production prospects begin to look up a bit something happens to bog down the assembly lines. It has happened now as a result of the coal tie-up. The General Motors shutdowns currently spreading through the corporation's many plants easily can cut from 50,000 to 60,000 passenger cars from the April-May-June production volume.

Added to what already has been lost and what is yet to be cut off because of the coal curtailment the industry's total loss directly traceable to the mine dispute easily may reach half a million units, certainly the GM cutback is only the first industry reaction to the coal-steel problem.

General Motors has indicated a hope its shutdowns may not continue beyond May 3. Other car makers say they hope to be able to continue car output without interruption.

It probably is significant that these are "hopes" rather than expectations.

For more than four weeks of the coal dispute automobile plants kept output around the 100,000-units a week level. They did this by tearing into stockpiles of sheet metal and other materials. The present outlook is that few companies will escape at least a week's shutdown for the rebuilding of stockpiles.

The industry's major shortages, of course, are in sheet metal without which their body plants go down in a hurry. But they are also short of pig iron needed in their foundries whence come motor blocks and other vital parts.

Ohio's Annual Slow-Fast Time Mixup Will Start Sunday

3 Big Cities Prepare To Make Change

Plane, Railroad Schedules 'Snafu'

COLUMBUS —(AP)— Ohio's annual time mixup starts Sunday.

Many northern Ohio cities—including Cleveland, Toledo and Youngstown — set their clocks ahead an hour then, but the remainder of the state stays on standard time.

Ohioans inquiring about the time of day will have to ask, "fast time or slow, please? Until the fourth Sunday in September. After Sept. 26, everyone will get the same answer when he looks at his watch, assuming the timepiece is accurate, of course.

Cleveland, Toledo and Youngstown are the only "big cities" going on daylight savings time. Columbus, Cincinnati, Akron, Canton, Dayton and Mansfield residents won't lose an hour of sleep Sunday. They won't get an extra hour of rest the night of Sept. 25, either.

Actually, Youngstown may be off fast time within a couple weeks. Voters at the May 4 primary will decide whether to amend the charter to make daylight time a permanent rule each summer. If the amendment fails, councilmen are expected to repeal the current fast time ordinance.

The time "snafu" will carry over into transportation facilities. Airlines are going on fast time schedules either Sunday or May 1. Most railroad trains will run on slow time as usual. But the Pennsylvania trains operating an hour earlier, starting Sunday, include the Clevelander and the Akronite. Bus lines, as a general rule, will maintain standard time.

Most radio network programs will be heard at the same time by folks in cities staying on standard time. Delayed re-broadcasts will make it possible for stations to release them at their customary local hours.

Here's a partial list of the other Ohio cities going on daylight time Sunday: Salem, Ashland, Alliance, Norwalk, Amherst, Bedford, Wellsville, Steubenville, Lorain, Elyria, Sandusky, Oberlin, Avon Lake, Huron and East Liverpool.

Partial observance of fast time is planned in neighboring Indiana, Ohio and West Virginia. Nearly all Pennsylvania cities will be on daylight time. Kentucky will not change.

the commercial league. Both received small victory trophies.

In the Mississippi Swim, first division, Edward Benning in first place received a large "Y," and Robert Bensinger and James Thompson in second and third places received small triangles.

Billy Coffman, first in the second division, Robert Crawford second, and Jerry Strock, third, were given similar awards.

Robert Crawford was named the best swimmer in the Friendly Indians class, Billy Coffman in the Comrade, Edward Benning in the Pioneer, James Hager in the Triangle, and Richard Gore in the Cadets. Each boy was given a certificate and a triangle.

Trophies were awarded to the championship senior church basketball team from St. Matthews and the championship junior team from St. Johns, as well as members of the YMCA basketball team.

Judge Stuart H. Cramer presided as toastmaster. Rev. Herbert S. Garnes of St. Luke's church gave the invocation. Boy magician Larry Rumer and boy ventriloquist Jay Herbert entertained.

The new general secretary, Maurice W. Taylor, discussed "Y" plans for the summer.

REPORTS MOLESTER

Report of two alleged molesters on Bowman street Tuesday night was given to police by Miss Elsie Ramsey of 501 Sturgis avenue and not by Mrs. Lucy DeNero as reported yesterday.

Everything From Pigs to Gum Offered to Farm Auction

Everything from pigs to bubble gum will be offered Saturday at the Fairgrounds in the county's most unique and biggest public sale.

Thousands of dollars worth of useful things for city house or farm will go to the highest bidder as the auctioneer's chant warms up for the Richland Rural Life Center benefit.

Planned by a committee headed by T. H. Sheppard of Jackson township, the auction will include articles donated by county residents. All proceeds of the sale will go to develop facilities for the rural center northeast of Mansfield.

Besides the auction which begins at 10 a. m. Saturday, there will be a huge rummage sale of serviceable items of clothing; a bazaar where the handiwork of county women will be offered for sale, and a lunch stand where hot goods can be obtained all day, including country baked pies and cakes.

Neil Robinson, auctioneer, will donate his services for the sale.

The sale will offer everything a farmer can use. Union Seeks New Contract

More than 300 Ohio Brass workers, members of local 758 of the United Electrical Workers, CIO, last night empowered the union's shop committee to take whatever steps necessary to conclude a successful contract with the company for 1948.

Negotiations which started at Ohio Brass several days ago were resumed today.

Negotiations began today at the Ideal Electric company plant for a new contract to replace the one which expires on April 29.

Squeeze Put On Berlin Air Traffic

Russians Pull Noose Tighter

BULLETIN

BERLIN —(AP)— The Russians placed fresh restrictions on western rail traffic in Berlin today. British and French authorities were told two international coaches running daily between Berlin and Paris will not be permitted to pass through the Soviet zone after tomorrow.

★

BERLIN—(AP)—Russia demanded today that the British and Americans eliminate night and cloudy-day flights into Berlin and submit to rigid regulation of other "properly scheduled" flights.

These restrictions were necessary, a Russian air investigation commission said, to maintain air safety.

The Russian demands followed disclosure that the British have rerouted Polish flights over their zone to Paris and Amsterdam to avoid "danger areas" where Royal Air Force pilots are training.

The Russian demands, if met in full, would virtually eliminate air flights. The demands were accompanied by a charge that the British faked evidence to absolve themselves from blame in the recent Berlin crash of a British airliner and a Russian YAK fighter.

The Russians already have placed strict controls on all transportation arteries they can reach with ground troops. These include railroads, highways and barge traffic on canals.

Soviet attempts to choke off air traffic were inaugurated by the Russian commission investigating the Berlin crash, in which 15 persons were killed. One was the Russian pilot in the Yak. The other 14 were British and American citizens in the airliner.

Land Lease Action Due

City council will consider legislation May 4 which will authorize the service-safety director to advertise for leasing of land to be used for an electric sub-station near the pumping station at the Clear Fork project.

The tenth of an acre, near the site of the pumping station at the intersection of the Lexington-Alta and Gass roads, belongs to the city.

This action is merely a formality, city spokesmen said, for the Ohio Public Service company will supply the pumping station with the needed electricity and will lease the land for the sub-station.

Council also will vote on a measure authorizing the R. E. Moorhead company to widen a portion of West Second street between Mulberry and Walnut streets. The company would widen the street by six feet and re-set the curb.

PAGE FOUR MANSFIELD, OHIO, THURSDAY, APRIL 22, 1948

It's too soon to start spending the money that will be saved by reduction of income taxes.

At this stage of the baseball season it may be assumed that all teams are "created equal"—just like people.

Now comes word that a New York church is serving coffee at its Sunday morning service—and it's true, no doubt, that coffee tends to keep some people awake.

Life Depends on Productive Soil

CONSERVATION of natural resources has come a long way since that April in 1876 when a tree was planted in Nebraska marking the first observance of Arbor day. It still has a longer way to go.

This has been designated as Conservation month by Governor Thomas J. Herbert and formal observance is climaxed tomorrow with Arbor day rituals in schools throughout the state.

It is generally recognized, of course, that there is a great deal more to saving our resources than just planting a tree once a year. A few miles from Mansfield, at Malabar farm, is one of the most highly publicized and successful soil conservation projects in the nation. It is conducted by author-farmer Louis Bromfield and his farm helpers.

In his writings the Richland county author has carried the gospel of preserving and building soil fertility to virtually every place where the printed word is read.

The streams of Richland county are in the vast Muskingum Watershed Conservancy district. And a few miles of driving will unfold before Mansfielders a public project for preventing floods and opening up wide possibilities for establishing recreation areas.

Contour farming was given a dramatic demonstration earlier this year near Newark. Today a trash-mulch pasture improvement program is being carried out in the view of 1,000 farmers near Chesterville.

These events and the record of Malabar serve to emphasize that conservation is not a one-day or a one-month job. It is a year around task that requires thought, planning, and engineering It holds the key to whether the United States will continue to be a prosperous, well-fed nation or whether we shall sink to the level of a hungry land afflicted by periods of droughts, floods, and famine.

Find and Punish Reuther's Assailant!

PROMINENCE of Walter P. Reuther, president of the CIO United Auto Workers Union, serves to direct more than ordinary public attention on the vicious attack made upon him night before last at his home in Detroit, when he was seriously wounded by a gunshot blast fired through a kitchen window.

While such exhibitions of lawlessness are not as uncommon as they should be in large and sometimes disturbed population centers such as Detroit, the obvious effort to kill Mr. Reuther savors of gangster tactics similar to those prevalent in Chicago some years ago.

The quoted comment by Mr. Reuther to the effect that blame for the attack rested on "management, communists or a screw-ball" gives an idea of the varied implications that can be placed on the crime until its perpetrator has been revealed—which, by all means, should be done at the earliest possible moment.

There is no place, under processes of orderly government, for persons who resort to violence in pursuit of their purposes and it is gratifying to learn that Detroit police are exerting utmost efforts to run down the would-be assassin and that a large reward is being offered anyone instrumental in his capture and conviction.

Possibly Chief Schwab Can Explain

ASSUMING that Police Chief Jesse Schwab was entirely honest in announcing last January 31 that the ban then imposed on commercialized gambling in Mansfield was to be "permanent," and that Mayor Vaughn had given him to understand that he (Schwab) was not to be interfered with in performance of his duties, many may wonder at the complete change of front that has come about in the meantime—with customary illegal gambling operations again in full swing.

This places Chief Schwab in an awkward situation as it can scarcely fail to give the impression that his change of policy resulted either from orders from "higher-ups" or because of pressure exerted by persons heading various gambling rackets in this city and area.

The whole issue—rather than whether or not there should be commercialized gambling in this or other Ohio cities and counties—is whether or not any mayor, police chief or other official is permitted to assume authority to decide which laws are to be enforced and which ignored.

If, in majority opinion, Ohio laws against commercialized gambling should be repealed and the field thrown wide open to all comers, then that action should be taken by the state legislature—which has thus far failed to indicate belief that a majority favors such a change.

Meanwhile there is appearance of official activity against commercialized gambling operations in a number of Ohio cities and counties—with resort to grand jury investigations in several instances where city law enforcement agencies fall down on the job—as is now being experienced in Mansfield.

Teach Children To Avoid Fire Dangers

ANY LONG range fire prevention program which will get results must include educational work in school systems. Traffic safety instruction is part of the curricula of most modern schools. Fire safety is equally important.

The basic attitudes we carry through life become established at an early age. A child who has been given intelligent, entertaining instruction in fire hazards and their elimination will soon develop ingrained habits of carefulness and attention to dangers.

What Some Other People Are Saying

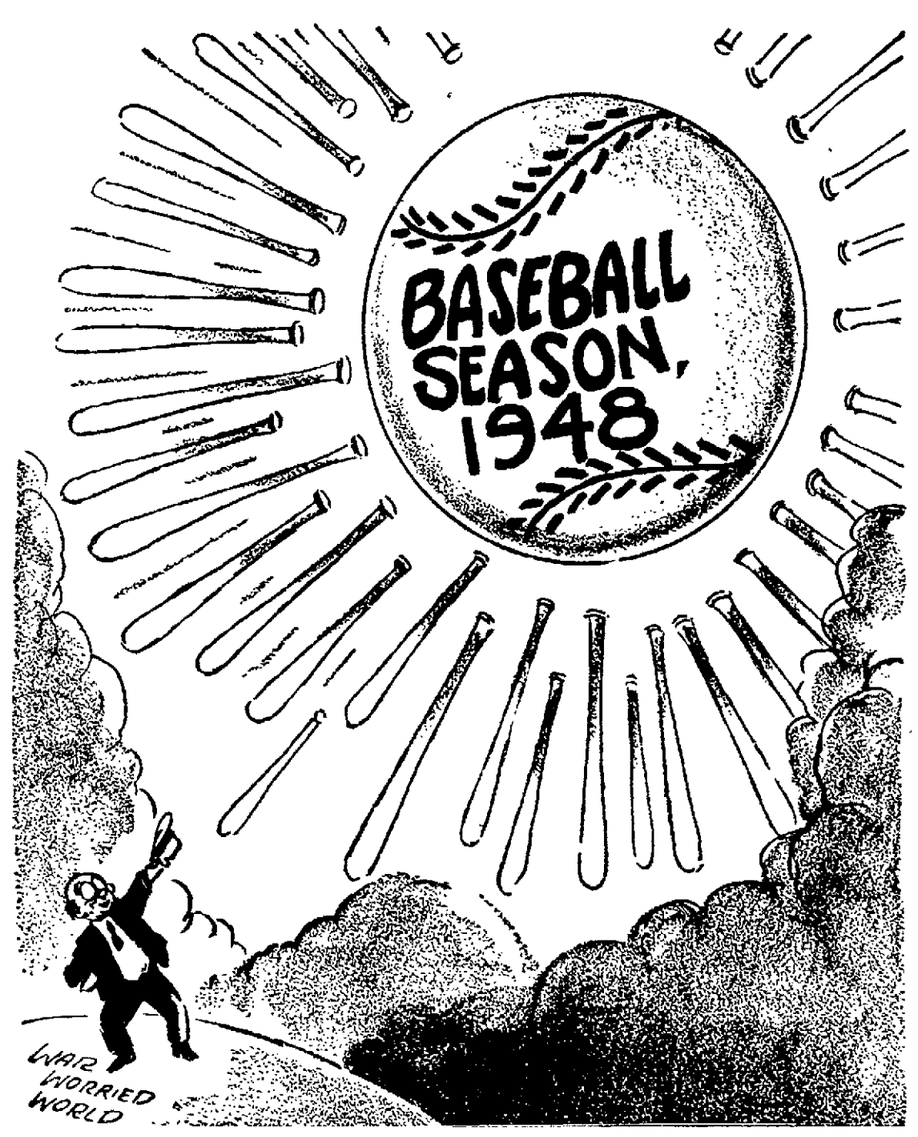

SEN. MORSE (R-Ore): "Leaders of the armed service have 'failed miserably' to provide an integrated program for the defense of this country. . . . The military has taken advantage of Congress in an election year to seek excessive appropriations."

GIUSEPPE SARAGAT, Italian right-wing Socialist leader: "Success of the Democratic Socialist movement in Italy is but the first step toward reconstruction of a great party. . . . Dictatorship has suffered a crushing defeat."

Washington Calling

Downey's Odd Crusade

By MARQUIS CHILDS

PROPAGANDA is one of those words that slip conveniently off the politician's tongue. He uses it to attack any point of view that he happens to disagree with.

A curious crusade is being carried on here behind the main current of the news. The crusader, the man on a white horse, the man with banners, is California's Senator Sheridan Downey. The object of his devotion is California's great central valley where on irrigated land rich crops of fruit and vegetables are grown.

Downey's goal is to have the limitation lifted restricting the holding of any individual to 160 acres of land under the irrigation project of the Bureau of Reclamation. In the valley today 34 of the biggest owners, most of them corporations, have 748,490 acres of land. If these owners got the benefit of water provided by the Bureau of Reclamation, they would have to split up their holdings.

The argument Downey chiefly relies upon is a complicated one having to do with water levels under the earth and what would happen to the underground water with large-scale irrigation. He insists that the small holder would end up by paying the water bill of the large holder, who would refuse to come under the Bureau of Reclamation project because of the 160-acre limit.

No ordinary citizen can pass on the merits of this argument. But the ordinary citizen can and does have opinions of the big corporations farm versus the moderate-size family farm.

It is just here, it seems to me, that Downey, the passionate crusader, goes off the track. He says it is "propaganda" by the Bureau of Reclamation, and most particularly by Commissioner of Reclamation Michael W. Straus, that has made so many people want to keep the 160-acre limit.

He has written a book, "They Would Rule the Valley," to prove it. He took the time of a subcommittee of the Senate for days to present his case against the Bureau of Reclamation "propagandists."

* * *

Great Speech-Maker.

WHEN the Senate committee got tired and lost interest, Downey took his case over to the House. There he persuaded Rep. Forest A. Harness of Indiana, chairman of a subcommittee that specializes in tracking down bureaucrats suspected of making propaganda, to look into the case. Downey never misses a chance to deliver a speech attacking Straus.

The funny thing about all this is that it builds Straus up into one of the greatest propagandists of all time. It makes him into a master mind, persuading organizations and individuals by his subtle propaganda to accept the 160-acre limitation. That is, of course, perfectly silly.

The Grange, the Farmers Union, the veterans' organizations, the National Catholic Rural Life Conference, the AFL and CIO all are for keeping the limit. So are many other groups.

Some months ago, water users on the Coachella irrigation district voted on a Bureau of Reclamation contract embracing in positive terms the acreage restriction law. The vote was 1139 to 19 in favor of the contract.

Senator Downey would apparently have us believe that all of this results from the "propaganda" of a few bureaucrats in Washington. That is not the way deep convictions take hold. They are woven into men's minds and hearts.

The time has come to stop this silly talk about propaganda. It has got so that a government official can hardly explain the work of his department in the normal course of his duty without being accused of propagandizing. The politician should realize that people are not quite so simple-minded.

Viewing the National Scene

Votes Show Preferences

By THOMAS L. STOKES

THE presidential primaries thus far offer a lesson that points the way to reform in the present restricted system of public expression on candidates in advance of the national conventions.

The scattered tests have demonstrated the value of this sampling of public opinion by ballot test

That, in turn, suggests that it would be still better and more informative to the national conventions if the people of every state, instead of just a few, had an opportunity to express themselves.

It would make for more democratic procedure and minimize the danger of boss-dictated conventions.

The tests this year have been highly illuminating—eye-openers in fact. Without them, for instance, we would have had no evidence, aside from the polls and the claims of his managers, of how popular Harold Stassen has become with the rank and file of his party. The voters went to the polls in two states and said so with their ballots, and you can't go back of the voters under our system.

Wisconsin and Nebraska, of course, do not make the nomination of themselves. They are, however, representative states in what we call the agricultural midwest and the results there indicate clearly that a new figure has emerged as the favorite of a sizable area, something that would not have been known generally otherwise.

Nor, without a test, would it have been known that Governor Thomas E. Dewey of New York had lost standing in that section where previously he had been in such high favoor as shown also by tests of voters in the past.

It was this previously exhibited strength in the midwest of a prominent political figure from New York, a key state in conventions and elections, that had helped to keep Tom Dewey at the top of the heap of candidates until the people of Wisconsin and Nebraska had another chance to speak up.

Stassen now goes to his next trial by ballot against Senator Taft and in the latter's native state. Ohio has a highly industrialized community as well as a prosperous farming community. Significantly, it is in Ohio's industrial areas that Mr. Stassen seems to be strongest as he and the senator begin busy and strenuous personal campaigns for the May 4 primary. Because of the test in urban areas typical of the East, the Ohio result will be most important.

In the only test in the East—in New Hampshire's March primary—Mr. Stassen ran slightly behind Tom Dewey. These two will meet again on the Pacific coast—in the Oregon primary, May 21. That test likewise will be watched closely. It is beyond the natural habitats of both.

* * *

More Tests Would Help.

IT IS too bad there are not more tests in the East as well as in other sections of the country. That brings us up to the moral of all of this. At present only 14 states hold presidential primaries. They are held under varying conditions, depending upon state laws, and differ in the obligations imposed upon convention delegates. There is no uniformity.

The presidential primary was a reform of many years ago. Its purpose was to get an expression by the people as a guide for the convention and to make the convention more responsive to the popular will.

But, instead of spreading through the years, it has contracted, so that fewer states now have such primaries than when it was initiated. While the system has been useful and informative on its restricted scale, it leaves much to be desired for many reasons, among them that some candidates never go voluntarily into a test anywhere, while others pick choice spots.

It would be beneficial to widen the primary to inrlude every state and on a uniform basis and require that every candidate be entered, as in Nebraska, which would be a good model. That would give a national expression of opinion. That would have to be done, of course, by individual action of the states since they control their own election laws.

Spanish Bloc Is Promoted By Argentina

By DREW PEARSON

WASHINGTON — Argentina is continuing to work backstage at Bogota to set up a strong "neutrality front" in case of armed conflict between the USA and USSR.

Although Peron's totalitarian, anti-democratic regime is the only government actively involved in this plot, it has all-out support from majority political groups in three other countries, plus some support in half a dozen more.

The formation of a "Hispano-American bloc" is a long-standing dream of ultra-nationalist reactionaries all over Latin America. However, this idea never went beyond the propaganda stage until Peron took over Argentina.

Nothing succeeds like success, and it was a hefty shot in the arm for these fascist-minded isolationists to see one of their own kind reach the top through strictly "legitimate" elections.

Since the end of World War II, Hispano-American stock has had a bull market in Argentina, Uruguay, Paraguay and Bolivia. But it is only during the past six months or so that concrete plans have been mapped out.

The present government of Uruguay, like its last few predecessors, is staunchly pro-democratic and notably friendly to the U. S. However, the presidential candidate who got the most votes in the 1946 election, Luis Alberta de Herrera, leader of the jingo-happy Nationalist party, has announced his open support of Hispano-Americanism as a "defense against Yankee imperialism." On March 24, he went further by promulgating the official slogan "No matter who wins . . ." as his party's position in case of war between Russia and the Western democracies.

The job of making democracy live in all the Americas will take a lot more intelligence and positive policy-working than the Truman administration has demonstrated in the past three years.

Hawaiian Statehood.

SENATOR Guy Cordon of Oregon is pressing for a vote on Hawaiian statehood inside the Senate territories and insular affairs committee. The House has already voted to make Hawaii the 49th state, but the bill hasn't been able to get by Chairman Hugh Butler of the Senate committee.

Butler has been insisting that the committee make a first-hand inspection before it passes on statehood despite the fact that when Butler's committee was invited to Hawaii last summer Cordon was the only one who accepted.

GOP Congressman E. H. Hedrick of West Virginia has vigorously protested to the White House against the proposed sale of 225 government-owned homes at South Charleston, W. Va. . . . "We are selling war plants for 10 cents on the dollar, but the appraisal value of these housing units has been jacked up so high by government housing officials that vets can't get loans from banks to buy homes," Hedrick told the President.

"Men who fought for their country can't understand why we sell war plants cheap to industry and homes high to veterans." . . . When the President received a pair of gold-plated boots and a bootjack from the El Paso chamber of commerce, he surprised the Texas presentation committee by putting the two-piece bootjack together in jig time . . . "You do that like an old hand," exclaimed Representative Ken Regan, from the Texas cattle country . . . Said California's Representative Harry Sheppard to a group of congressmen in the House restaurant: "Unless we are completely stupid, we must assume that the German scientists Russia commandeered have given her the atomic bomb by this time, and that she has planes as fast or, perhaps, faster than ours to carry the bomb. That means we will either have to start appeasing Russia or build an air force big enough to whip her. The quicker we build an air force like that, the quicker Stalin and his thugs will become good boys."

Merry-Go-Gound.

PRESIDENT Truman has been calling in Democratic leaders from all over the nation, and giving them pep talks aimed at securing his own renomination. After they leave his office, the visitors are discreetly warned that a vote against Truman at the Philadelphia convention means no jobs for them in the future . . . CIO President Phil Murray and Chicago political boss Jack Arvey met secretly in Pittsburgh the other day. Both are opposed to Truman's running again . . . Chester Bowles, who is opposing President Truman's renomination, will make a nation-wide tour stumping for a liberal Democratic nominee . . . John L. Lewis's real strategy in prolonging the mine strike was to cut coal reserves. With stock piles low, Lewis is in a better bargaining position to get wage increases when the operators have to sign a new contract in June.

Assignment: America

Can They Keep a Secret?

By KENNETH L. DIXON

WASHINGTON — Nine senators and nine representatives soon will be asked to do one of the hardest things in the world for a politician, particularly during election year—namely, keep their mouths shut.

It is not, however, upon a mere matter of domestic politics that their coordinated and complete silence is required, but rather a matter of survival.

They are members of the joint congressional committee on atomic energy. The subject of their expected silence will be the recent atom bomb tests on Eniwetok atoll in the Marshall islands.

(Chairman of the committee is Senator Bourke B. Hickenlooper of Iowa. Vice-Chairman is representative W. Sterling Cole of New York. Both are Republicans.)

According to the brief statement this week by the atomic energy commission which conducted the tests on the Pacific atoll, for security reasons not even the date of the experiments could be announced.

Furthermore, its results were not—and will not be—revealed, the announcement indicated, except for a classified report "to the joint committee on atomic energy of the Congress."

Other senators on the committee include Republicans Vandenberg of Michigan, Millikin of Colorado, Knowland of California, Bricker of Ohio, and Democrats McMahon of Connecticut, Russell of Georgia, Johnson of Colorado and Connally of Texas.

There was no indication whatever as to the number of tests made at Eniwetok or the power of the bombs tested. Presumably, however, they were more powerful than the ones dropped on Hiroshima and Nagasaki on August 6 and 8, 1945, which were said to be far more destructive than 20,000 tons of TNT.

Also presumably, such information would be included in the classified report to the joint congressional committee.

* * *

Law Applies To All.

NATURALLY, it goes without saying that the Atomic Energy Act of 1946 and the accompanying security laws apply to members of Congress as well as to average citizens.

Also, treason is treason, and its penalties apply to the highest as well as the lowest.

Further, it certainly should be assumed that no member of Congress would even consider deliberately giving away America's vital atomic energy secrets.

But to avoid accidental disclosure of such data as the Eniwetok test results is going to be a tough proposition, for all the committee members are well-known to those who would seek such information.

(Which might make this a good time to remind then that the Hiroshima bomb killed an estimated 70,000 to 80,000 people and obliterated sixty percent of a city of 343,000 population.)

In addition to the nation's enemies, a lot of good patriotic Americans are going to be extremely curious about the new bomb tests.

There are always those prying incurables who like to think they are in on the know. And in an election year, particularly, it is tough for a professional politician to risk resentment by bluntly refusing to answer leading questions.

(But there are greater risks. Nagasaki was a much smaller city, but the bomb there killed between 35,000 and 40,000 people.)

It's going to be a tough secret to keep. Still, no one can deny that hundreds of scientists and thousands of plain, ordinary, patriotic Americans kept such a secret magnificently for years.

It will be a matter of somewhat more than mere academic interest to us all to see if a handful of congressmen can do the same.

Speaking of Your Health

Iodine In Daily Diet

By HERMAN N. BUNDESEN, M.D.

THE BODY uses certain substances — chiefly minerals and chemicals — in infinitesimal amounts. To those of us who are used to dealing in ounces and pounds, the term "speck" would best describe the quantities needed.

Since these are so small the average man or woman might reason that going without them altogether could do no great harm. Just the reverse is true, and the penalty of depriving the body of only a few grains of an essential substance can often be disastrous.

You could, for instance, put the necessary daily ration of iodine on the head of a pin. But trying to do without it would result in all sorts of disorders.

Iodine is particularly needed as one of the ingredients used by the thyroid gland to form the secretion which regulates the speed at which all chemical activities of the body are carried out.

Food and Water.

In many parts of the world, food and water may be lacking in iodine. Such areas are known as goiter districts, because the deficiency of iodine leads to enlargement of the thyroid gland or goiter. The Great Lakes area in this country is one of the largest goiter districts in the world.

Studies have been carried out on large numbers of children which have indicated that those living on areas receiving enough iodine grow almost a half inch taller than those who do not get the iodine. Their weight also is greater.

These studies have also indicated that the birth weight of infants whose mothers received iodine during pregnancy was greater than those of mothers who did not get this mineral.

Then, too, it has been shown that the feeding of milk with an increased iodine content to children living in the goiter areas resulted in more rapid and regular growth.

Iodized Salt.

It seems definite that the addition of iodine to the diet of young children living in the goiter belts is necessary for their normal growth and development.

Since the amount needed is so small, a convenient way of getting it is through the use of table salt to which iodine has been added. Iodized salt can be bought in any grocery store and its use is to be encouraged as a means of making sure that everybody gets sufficient iodine in the daily diet.

Hollywood Speed-Up.

Lana Turner has ordered a $30,000 trousseau. And her prospective husband, Millionaire Bob Topping, has booked honeymoon passage to Europe on a ship sailing two weeks hence.

This would be more or less routine Hollywood news if it weren't for the fact that Mr. Topping happens to be a married man.

True, he hasn't been paying much attention to that fact for a long time. His current wife, Arline Judge, has delayed getting the divorce to which she is no doubt entitled. But now she says she'll get it this week and Husband Topping is all set to start over again.

We're just old-fashioned enough to hope that the judge delays the divorce, or makes some kind of stipulation which restrains Topping from remarrying for a period of time. The man needs a lesson in American marriage laws and customs.—Akron Beacon-Journal.

Daily Bible Thought

Many will entreat the favour of the prince: and every man is a friend to him that giveth gifts.—Prov. 19:6.

ODD FACT

As Cerf Tells It

People who always crave the limelight should reflect on the mournful words once uttered by William Jennings Byran: "Fame is but a pedestal on which the victim is placed in order to give the world a better chance to throw bricks at him."

New Radio Range Station Ready Soon

MUNICIPAL AIRPORT — Virgil Morgan, chief of the Interstate Airways Communication Station at the Mansfield Airport reports that the new VHF Omnidirectional radio range station located six miles southeast of the airport will be in operating condition within a few days

This type of range station is the most advanced aid to navigation and the scheduled airlines are equipping their airplanes with the radio equipment needed to utilize the new VHF Omnidirectional radio ranges

★

NEW FACES J L Alexander, aircraft communicator will be stationed at the Interstate Airways Communication Station He replaces A J Bohatch recently transferred to Akron

★

FALSE ALARM The other night James Grau chief guard at Richland Aviation Inc heard airplanes circling the airport The ceiling and visibility were poor due to rain and fog

He assumed the planes were having difficulty establishing radio contact with the CAA Communication Station and hurriedly contacted CAA on the new intercommunication system, requesting the runway lights be turned on

Aircraft Communicator Cody informed Jim there was no need to be alarmed as the airplanes he was hearing were being "stacked" at 1000-foot intervals in elevation above the Cleveland airport

During poor weather conditions, airliners arrive over Cleveland faster than they can land by ILS (instrument landing system) Consequently, Cleveland ATC (air traffic control) must hold them until their turn comes

When there isn't any more room to 'stack" them at safe intervals in the Cleveland area, overflow planes are instructed to 'hold' over Mansfield until their turn to land at Cleveland.

FROM THE 321ST BOMB GROUP: Major Hall, unit instructor for the 321st Bomb Group, reports that the Group Air Reserve Unit has reached such a stage in training and records that it is now awaiting an up-grading from the 11th Air Force to Class 'A" Unit This upgrading will bring into Mansfield tactical type aircraft sometime in the near future

JOAN SCOTT ANNOUNCES JUNE 20 WEDDING DATE

Bride-Elect Tells Friends of Approaching Marriage to William Erdenberger; Party for 30.

JUNE 20 is the date chosen by Miss Joan Scott, daughter of Mr. and Mrs. Ray Scott, 464 Sloane avenue, for her marriage to William Erdenberger, son of Mr. and Mrs. Russell Erdenberger, Stewart road.

The marriage will be solemnized at 4 o'clock in the afternoon in the Evangelical United Brethren church, Park avenue east, of which both young people are members. The double ring ceremony will be used and open church is to be observed.

Attending the bride will be Mrs. Ronald Hunt, matron of honor, and the Misses Shirley and Beverly Scott, her cousins, as bridesmaids.

Robert Erdenberger will serve his brother as best man and two other brothers will be ushers. They are Jack and Richard Erdenberger. Robert Anthony and Wallace Campbell also are to be ushers.

Carol Eby, Ashland, and Tommy Cleland, cousins of the couple, will light the candles in the church before the services. Special nuptial music will be provided by the Treble Choir.

The date of the approaching marriage was made known to friends of the bride-elect Tuesday night when her mother entertained 30 guests in the Scott home. When refreshments were served, buffet style, the table was centered with a miniature bride kneeling under a small arbor covered with flowers and greenery. The decorations followed a pink, blue and yellow color scheme.

A window above the table was screened and when the lights behind it were turned on, the guests read the announcement, "Joan and Bill, June 20." The announcement also named the church in which the couple will exchange vows.

Cards and games were the diversion of the evening and prizes were won by Mrs. Ronald Skeen, Mrs. Hunt, Mrs. Nyle Oswalt and Miss Beverly Wentz.

Each guest at the party received a corsage from the hostess.

Newman Mothers Club Honors School Employes With Party

THE ANNUAL PARTY given by the Newman School Mothers' club for teachers and all other leaders and employes at the school was an event of Wednesday afternoon in the school lunchroom.

Mrs. Leo Karsmizki, president of the Mothers' club, opened the meeting at 1:30 p. m. with The Lord's Prayer and the pledge to the flag.

During the business meeting it was announced that the firemen of Station No 4 had finished the benches for the lunchroom. This project was sponsored by the Mothers club. The group voted to present a gift to each fireman and to each of the two school janitors in appreciation of the work done by them. Mrs. Carl Weber was appointed to make the presentations.

A nominating committee was appointed and it includes Mrs. William Halvax, chairman, Mrs. Charles Martin and Mrs. Steve Ganea.

Miss Reba Robinson's first grade room won the attendance prize.

Thirteen of the school's teachers, the school nurse, the librarian, one substitute teacher and the janitors were present for the party. A gardenia corsage was given to each lady present and the men received carnation boutonniere. The flowers were presented by Mrs Louis Rath and Mrs. Halvax.

Your Figure, Madam

If it's adventure you crave, try taking a poll on women's ages. One might even call it living dangerously. The day the idea for this age poll struck me, I was conveniently tied up—so my Gal Friday did the quizzing. Answers ranged from amusing evasiveness to cool indignation, and out of the 20 women asked only one quite openly revealed her age.

We led into the thing subtly enough with the innocuous question: "Do you think women mind telling their age?" The majority came back with an emphatic yes. The few who said no, they didn't think women minded telling their age, would not—when pinned down—tell theirs! Well, the poll was all in fun, but the answers are proof that women will tell anything—except age. As one lady sharply put it: "Tell my age? Why I'd just as soon appear in public without my bridgework!"

Why the reluctance? Some of the women said it was due to professional reasons. Some attributed it to a dread of age, a desire to dodge the years by blithely refusing to admit them. Others said it's because youth is glamorized and age is made unattractive in comparison. Still others candidly blamed it on vanity—"Why in the world would we make all this effort to look young, then go around bleating out our real age?"

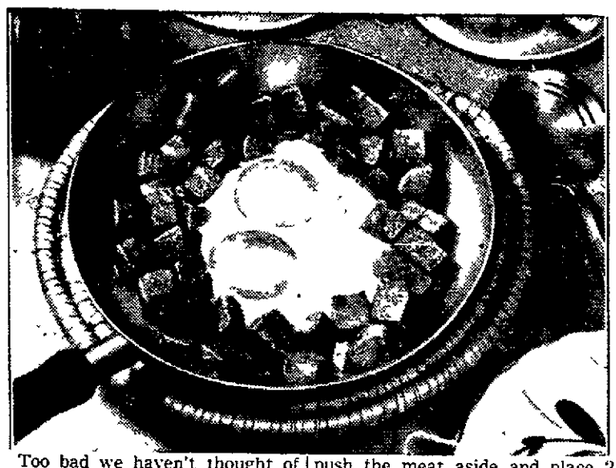

Two of the married women said they thought single women were the ones who put up the stiffest resistance to age-telling A single woman blasted that theory with the story of her sister-in-law "who has five children and goes off like a firecracker if anyone even mentions age." One astute lady who suspected what was coming, said, rather pointedly: "I really don't think it's anybody's business." A poll-taker's lot is not an easy one.

Everyone was too quick for the "What birthday did you mind most?" follow-up. They either passed it off with a vague "Oh, I haven't reached that stage yet" or calculatingly seized on some years in their twenties. Most forthright answer: "The birthday I minded passing most was my 35th . . . so I never passed it It's a nice age and I intend to keep it for a good many years yet!"

Then came the punch line, the disarmingly frank question designed to take 'em by surprise: HOW OLD ARE YOU? It didn't work—not one woman was trapped. The one interviewee who gave her age—the 1 in 20—admitted that she always told it readily because she liked to see the flattering reaction . . . she's 42 and looks 35. "When I begin to look my age, maybe I won't be so gay about owning up to it," she confessed.

Once the poll ran into real danger. To the final question, one lady countered with a quick, "How old do you think I am?" After a frantically swift appraisal, my assistant made a guess—a good 10 years on the side of diplomacy "You're close," beamed the delighted subject. Well, safe, anyway.

Why did I have my assistant take this poll? She's younger than I am . . . and stronger. And how old am I? I'll be just as direct as the others—I, too, think 35 is a nice age. But I promise to take the next age poll myself.

Too bad we haven't thought of this before when searching for breakfasts to rouse the family from slumber This skillet breakfast of diced luncheon meat and eggs stands out in at least three counts Sugar-cured pork with tender beef added creates such a delicious aroma as it browns in the skillet that it will summon the whole family to breakfast in record time. The flavor keeps the family happy at the table, and the staying qualities of the dish ward off mid-morning hunger pangs. Perfect score, we'd say.

For two people, dice and brown ½ a 12-ounce can of luncheon meat in a teaspoon of shortening in a 6-inch skille. When brown push the meat aside and place 2 eggs in the center. Cover, turn off the heat, and let stand for 5 minutes while the eggs set. It's a delicious combination you'll serve often.

For Friday, April 23.
By GENEVIEVE KEMBLE

ALTHOUGH there is a presage of some out-of-the-ordinary or routine opening of more than commonplace significance, at the same time there is portent of confused or obscure thinking which could 'cloud the issues" or annihilate exceptional chances. This excellent opportunity for gain, promotion or tokens of preferment from high places, demands astute application of intelligent, sagacious and clever rationalizing and not mere flash-in-the-pan analysis of complications. Use restraint and mature judgment for exceptional opportunity.

Those whose birthday it is have splendid promise of unusual opportunities for gain, promotion, prestige and popularity, especially by the cooperation of influetnial personages or organizations. And while such prospect is of more than passing significance, there is a menace of complications, acting from overconfidence, of a possible speculative urge, or just a reckless confusion as to the extraordinary value of major promise. Moderation, shrewd analysis of basic factors, rationalizing, and not youthful enthusiasm or exaggeration, may win dynamic chance.

Silent Monks Nibble Ham Sandwiches For First Time

CUMBERLAND, R. I. — (AP) — Bearded, silent men of an old Trappist monastery were to arrive today at Glorieta, N. M. after a journey on which they experienced things forbidden in their religious lives - ham sandwiches and pullman cars.

The Rev. Dom M. Futterer, O. C.S.O., prior of the abbey of Our Lady of the Valley, led a band of 26 monks, priests and brothers to the new abbey of Our Lady of Quadalupe at Valley Ranch, near Santa Fe.

Travel by pullman and the eating of meat on the trip, the abbot explained, were allowed by special dispensation from the severe code of the cloistered Roman Catholic order founded more than eight centuries ago in France.

The vows of Trappist monks, he said, include one against the eating of meat, fish or eggs except in illness or on long sea voyages.

The Trappists also observe a rule of silence but the Abbott may dispense with the edict at any time. Fr. Futterer did not say whether the monks would be permitted to talk on their long train ride.

Fr. Futterer said that the journey originally was to be made in coaches but only pullmans were available.

The men of the Cistorian order took their meals in a separate car and there were ham sandwiches since this was a long land voyage, the prior added.

He said the pilgrims expect to arrive in Glorieta, N. M., Thursday.

The Trappist abbey here was founded 46 years ago in the village of Lonsdale. The men of the order devote their lives to prayer and farming labors with their day starting at 2 a. m.

Tiny Theater Starts 26th Year of Record U. S. Run

PHILADELPHIA—(AP)—A promising young actor came to suburban Rose valley 25 years ago He had $9 in his pocket and a dream to fulfill

Jasper Deeter left behind him one of Broadways brightest futures because he says You can t manufacture beauty and money at the same time"

He and his associates never have manufactured money but tonight they complete 25 years of manufacturing artistic beauty.

Deeter's monument to beauty is quaint little Hedgerow theater, where 25 consecutive years of repertory is a theater record in the United States

For their 25th birthday party the 24 members of the Hedgerow group last night presented the American premiere of And He Did Hide Himself" Ignazio Silone's adaptation of his novel 'Bread and Wine"

Hedgerow has made its mark not only on Philadelphia and the eastern seaboard but on the American stage and screen An impressive list of stars have moved from Hedgerow into the fore of American drama New playwrights have gotten their start here world premieres have been presented In 25 years Hedgerow has staged 160 productions

Deeter sat down and reminisced over the years of strife and success and decided the venture was worth it 'I think we've proved he said, "that you can create beauty without worrying about pleasing rich backers and without prostituting art because people aren t supposed to like it'

Hedgerow s little theater seats only 167 persons often is packed to capacity In 152 performances last year an average of 135 persons attended They paid prices of $2 40 $1 80 and $1 20

License plates from every state are seen in the parking lot Talent scouts and theatrical agents are regular visitors

Among those who have gone forth from Hedgerow are such well-known performers as John Beal, Helen Craig Richard Basehart and Van Heflin Libby Holman the blues singer acted with Hedgerow a few years ago

Deeter explains 'My Broadway experience showed he that we actors and actresses didn t have any freedom in the theater We were hamstrung and restricted by all kinds of clauses and financial commitments There were a lot of discontents I wasn t the only one

He came in 1923 to Hedgerow, which had been converted from a snuff mill into a community theater by Architect Will Price at the turn of the century.

By the following year Deeter was joined by other Broadway 'discontents men and women such as Eva La Gallienne Ann Harding Allyn Joslyn and Morris Carnovsky This repertory theater was born April 21 1923 with Deeters first production George Bernard Shaw s Candida'

Things were tough and money was hard to come by In October 1926 the money ran so short that the theater was closed and Deeter and his fellows went back to New York show business But they were back in June 1927, and the theater has survived wars gasoline shortages and inflations since

Russians Want to Shove U. S. Out of Berlin, Says Newsman

NEW YORK—(AP)—Wes Gallagher lives in what he calls "the world's biggest air-conditioned prison."

The prison is Berlin, Germany.

Gallagher believes that today it is the keystone of American prestige in Europe and that the Russians will exert renewed pressure to force the western Allies out of the German capital before the October elections.

This man Gallagher, who flew here to address the annual membership meeting of the Associated Press, is a real "newspaperman's newspaperman" — the kind the oldtimers say died out long ago.

Wherever free men in the world read a free press they have seen his byline— By Wes Gallagher." In the last eight years it has told the story of war and half-peace in 17 European countries, from the first foxholes to the latest conference table.

Here is the man behind the byline:

He is a big-shouldered, six-foot, stubble-headed, soft-hearted Irishman with the energy of a cub police reporter, and the mind of a diplomat. He peers at people from a pair of black eyebrows as bushy as John L. Lewis's in full bloom. He has only two facial exressions —a glowering frown while he's digging out an exclusive news story, a Cheshire cat grin when he puts it on the wire.

★

A foe of hypocrisy and stupidity —official or otherwise—Gallagher waged a steady battle of his own throughout the war against generals who tried to use censorship to cover up their blunders.

"In the next war I'm going to have you made chief censor so you'll have to do as I say," a three-star general once told him at a dinner party.

Gallagher worked him over with his eyebrows.

"I wouldn't serve under you," he said flatly. The general shut up. He was afraid one of his military guests might ask Gallagher why.

But Eisenhower, Simpson and "Tooey" Spaatz had a personal liking for Gallagher and respected his rugged judgment. When military commanders began asking his advice on whether a "hot" story was too ticklish to release, he said bluntly:

"Tell it. You don't own the news—whether it's good or bad. If you try to suppress it, it'll blow up in your face."

Covering world crises has become routine with Gallagher, but he believes the present Berlin situation may flare into war.

"The tension has died down a little, he said. "Only 50 of the 2,500 American dependents have asked to go home.

"The trouble is that the Russian leaders have told their people so often they won the war single-handed that they've come to believe in their own propaganda.

"Allied diplomats there don't believe the Russians want war now, but they're afraid the Russians don't know how to stop short of war.

★

"The Russians are still determined to get us out of Berlin. They probably will make another attempt after they get the harvest in. They want to have a free hand by the October elections, however, to be able to deal with the 2,000,000 Berliners who voted against communism last time.

"If we let the Russians run us out of town, our prestige in Europe will collapse. No European country would be willing to put up a fight."

How long could the present American garrison in Berlin hold out if some "incident" precipitated war?

"Perhaps six hours," he said. "But they might be important hours."

Just before Wes took off on his return flight to Berlin I asked him if covering eight years of world struggle had taught him anything.

"Only that nothing is more important than human freedom," he said.

Walter Winchell

Soviet Falsehoods Unchallenged, Says Gen. 'Wild Bill' Donovan

IS THAT SO?—In the May Atlantic Gen. Wild Bill Donovan, head of the O.S.S. in World War II, says in part: "Only now in America are we awakening to the existence of the hard fact that the Stalin challenge to our world is indistinguishable from the Hitler challenge.

"Many Americans (name two, General) who knew the situation and were familiar with Russian subversive activities besought our statesmen to inform the American people.

"Russia's malicious lies and distortions have gone unanswered and unchallenged."

Huh?

★

At Bradley's last night a diplomat, just back from Washington, said: "The State Department is running our Middle East with a firm hand."

"Zatso?" snapped Ted Mack. "What's the name of the firm—Standard Oil?"

★

It happened at a literary tea. One of the snobnoxious 'set (propelling himself by the tip of his nose) sailed over to a newspaperman busy drowning himself in a scotch mist.

"I see you like free liquor," smirked the stronger, "but I'll wager you aren't aware this party is being given for the author of 'The Outline of History.' Have you ever heard of him? His name's Toynbee."

"Soytinly," was the retort.

★

John Barrymore (once called John Barleycorn) was appearing in a flop play. The critics devastated it and him. He came to the second performance sold cober.

"I told you," roared the producer, "not to show up drunk!"

"If I wasn't," he said, "do you think I'd show up?"

★

The party was going full blast when a ham and his wife started a war. After 15 minutes of screaming at each other, she slapped him and announced she would go to Reno.

The hostess found him in a chair wringing his hands. "Is there anything I can do for you?" she asked.

"Yes," he sobbed, "phone any columnist!"

★

Louella Parsons in the Journal-American: "This I have to see, a slapstick comedy with Katharine Hepburn. Will Katie keep her precise, stylized manner of speaking while a custard pie is tossed in her face?"

Diddenjez never see "Bringing Up Baby," which Hepburn did with Cary Grant years back? One of the funniest films ever. In one hilarious scene La Hepburn sashayed across a crowded night club floor with the rear of her gown ripped off—showing only her ahems!

Voegele Will Gives Value Of $95,000

Bulk of Estate Goes to Widow

Frank Albert Voegele, senior member of Voegele Brothers, Mansfield building supply firm, left an estate estimated at $75,000 in personal and $20,000 in real property. He died April 11.

His will, filed in probate court yesterday, provides that the estate to go to his widow, Charlotte, after bequests to three children and the St. Matthew's Lutheran church.

The will provides $2,500 for the church, and $3,500 to each of three children, Gerald W. Voegele of Wyandotte, Mich., Dr. Albert H. Voegele, and Mrs. Virginia Green, both of Mansfield.

The two sons were named administrators of the estate, with will annexed.

The will of Mrs. Ida J. Remy, late of Mansfield, provides for her estate to be divided between her grandchildren, Bertram Horn Mohler and William Horn.

The executor of the estate, James G. Courtney, was instructed to convert the property into cash through a private sale.

The estate was estimated at $5,000 in personal and $16,000 in real property.

Held to Jury In $4 Theft

Prison Guard Fined After Accident

William E. Robinson, 228 North Franklin avenue, was bound to grand jury yesterday in municipal court after pleading guilty to a pocket picking charge involving the theft of $4. Robinson's bond was set at $1,500. He is being held in county jail.

Homer I. Foley, a guard at the London Prison farm, was fined $15 and costs and his license to drive was suspended for 30 days on a charge of unsafe operation.

Foley was returning a prisoner to London April 6 when his car left the road and overturned on U. S. Route 42 a short distance south of Mansfield. The prisoner, Chester Gapinski of Cleveland, went to the rescue of Foley who was pinned under the car.

James F. Jones, 184 Oak street, was fined $15 and costs when he pleaded guilty to a charge of unsafe operation.

Fined $10 and costs on a similar charge was Glenn R. Hanlon, 84 East First street.

Five dollar fines plus costs were assessed against Melvin T. Craze, 150 West Third street, and Roy E. Frazee of Columbus for failure to register a motor vehicle, and Thomas P. Comisford, 61 Cameron avenue, and Ralph E. Lifer, Shreve, for permitting unlicensed drivers to operate motor vehicles.

An assault and battery charge against Burl Fraley was dismissed at the request of the complainant, and hearing on an unsafe operation charge against H. P. Weaver, 191 Park avenue west, was continued to April 28.

1,000 Pay Tribute To Msgr. R. C. Goebel

By DWYER CLAY

More than 1,000 members of St. Peter's Catholic church last night paid tribute to Msgr. R. C. Goebel for his 25 years' service given to the Mansfield church.

The 25th anniversary celebration opened with a dinner at the Mansfield-Leland hotel where 14 former assistant and resident Mansfield priests congratulated Msgr. Goebel on his record of service at St. Peter's church.

Rt. Rev. Msgr. W. A. Tobin, a close friend of Msgr. Goebel for nearly 50 years, addressed a gathering later at the church and praised the pastor for his service and guidance for the past quarter century.

He stressed Msgr. Goebel's advancement in teaching and missionary work while providing the school children of St. Peter's with both their grade and high school.

Msgr. Goebel came to Mansfield in 1923 and immediately began to reorganize the parish, plan the building of the schools and gain the respect and honor of all his parishioners.

"We have come a long way in these 25 years and have seen some lean financial years," Msgr. Goebel said. "Now that we have succeeded this far we should look ahead. We will progress even further. We must go ahead."

PROJECT PLANNED

Plans are now being made for a new modern high school and a convent for the St. Frances Sisters of St. Joliet, who have served the Mansfield church for almost 75 years.

Representatives of all school grades presented Msgr. Goebel with 25 U. S. savings bond from each class at St. Peter's to help build the new high school. The bonds were of $25 denomination.

A testimonial purse was presented to the pastor by J. B. Jurgens on behalf of members of the parish.

Rev. T. M. Downey introduced Master of Ceremonies John C. O'Donnell, who officiated at the celebration. Rev. Downey originated the plan for the anniversary celebration and kept it a secret from Msgr. Goebel until yesterday morning.

Congratulations were offered by Carl U. Graf and Mrs. Edward F. Davis, both members of the parish since Msgr. Goebel came to Mansfield.

Three Area Men Visit Dublin

Three area men set foot on the shores of Ireland today. They are among the 1,000 officers and men who were welcomed in Dublin as the United States Navy paid its first visit to the Irish Free State since before World War II.

The men are: Robert S. Zellner, seaman apprentice, USN, son of Mr. and Mrs. Frank Zellner of 206 Pierce street, Crestline; Paul E. Mazzotta, seaman, USN, husband of Mrs. Portia Mazzotta of 425 Edgehill avenue, Ashland.

Father Asks $25,627

Roy Eugene Shelton, 19, of 375 Springmill street, was named defendant in a $25,627.96 damage suit, filed today by Loran T. Payton, Ontario, in Common Pleas court.

Damages are sought in connection with the death of Noel Richard Payton, 16, son of the plaintiff, who was killed in an auto accident in Ontario on Jan. 27.

Payton charges that Shelton, driving a car which collided with the one in which the Payton youth was riding, was traveling at a "dangerous rate of speed" and failed to "exercise ordinary care on a road covered with ice and snow."

Payton seeks $25,000 damage for the "precuniary injury" and $627.96 for expenses of funeral services and burial.

Joseph A. Bayer is counsel for the plaintiff.

The Payton youth was a passenger in a car driven by Donald Lee Miller, 18, also of Ontario.

Boosts City's Power Pool

OPS to Build New $13,000,000 Unit

Mansfield's reserve source of electric power is going to be substantially increased. The Ohio Public Service company today announced that construction will begin immediately on a $13,000,000 generating plant at Dille's Bottom on the Ohio river near Bellaire.

This will be the third unit at what OPS calls "Burger Station". The two other units already have a capacity of 35,000 kilowatts each. The new unit will have a 100,000 kilowatt capacity.

In making the announcement, Joy A. Herbert, vice president and general manager of the company, explained that the new source of power will be tied in with the present system which includes the 19,000 KW plant at Melco, a 65,000 KW stand-by plant at Alliance, the Marion Reserve Power company facilities, a 10,000 KW unit at Warren, a 100,000 KW generating plant of the Toledo Edison company, and a 65,000 KW plant now under construction at Lorain.

Herbert said Mansfield uses approximately 35,000 kilowatts and that addition of the new Burger unit insures ample power reserves for Mansfield with anticipation that the city will continue its present rapid expansion.

The $13,000,000 construction announced today is in addition to the $37,000,000 improvement program revealed several months ago by OPS. Herbert was advised of the addition in a telegram from R. E. Burger, OPS president.

Urges Inquiries About Hog Market

Richland county farmers were urged today by Guy L. Taylor, chairman of the county Triple-A committee, to contact their commission men and market before shipping hogs.

Recent reports regarding opening of packing plants resulted in a glutted market and a sharp decline in hog prices, Taylor said. He added that advanced prices paid for pork indicate that hog numbers are not excessive and hog raisers can protect their prices by letting packer-buyers guide their marketing.

Syndicate Bid Called Best Offer

Firm to Give $2,261 Premium

County commissioners yesterday afternoon sold $700,000 worth of tuberculosis sanatorium bonds to a three-firm syndicate on a bid of 1½ per cent interest and $2,261.10 premium.

The syndicate includes Fahey, Clark and company, Cleveland, the Ohio company of Columbus, and the First Michigan corporation.

The county considered the syndicate's bid as the best of 13 opened yesterday noon at the court house.

The bonds were voted in separate issues of $300,000 and $400,000 at two elections to finance construction of an 84-bed TB sanatorium on State Route 39, southeast of Mansfield.

Second and third best bids received yesterday by the county commissioners were submitted by the Harris Trust company, Chicago, at 1½ per cent interest and $1,978 premium, and Otis and company syndicate, Cleveland, at 1½ per cent and $1,969 premium.

LONE MANSFIELD BIDDER

The only Mansfield bidder, Citizens National Bank and Trust company, bid only on the $300,000 issue and asked 1½ per cent interest and offered a $904 premium.

Bids offered on the bonds were considered "exceptionally good" by county officials and bond experts who said the attractive offers were made because the county is free of bonded indebtedness.

The county TB sanatorium building commission will receive bids May 19 on construction of the sanatorium. The commission is seeking a federal grant to help equip the sanatorium.

More than 200 reserve officers in the Richland county area have been asked to attend. The invitations stressed the need for unity of the reserves and the formation of a definite program for carrying the message of the armed services to the community level.

An officer from State ROA headquarters is expected to be present.

"We want this meeting to be in the form of a rally meeting to let all reserve officers know we need their support and that with that support we will provide an interesting, educational and entertaining program throughout the coming year," Preyer said.

Tree Transplanters Warned To Leave City Shrubs Alone

Two Bloominggrove residents who admitted to police that they took eight young pine trees from the Clear Fork dam area to transplant to their own front yards will be given some pointers today on leaving city property where it lies.

The "pointers" will be delivered by Service-Safety Director E. L. Morgan. He summoned Albert Drake and Ruth Moffett to his office at 2 p. m.

Detectives traced them by the license numbers of the cars in which they allegedly transported the shrubs to their homes.

When questioned by detectives who saw the trees already transplanted in the front yards, the pair was quoted as saying they took the trees because they believed the area at the dam to be waste land, belonging to no one.

Detective F. Bruce Friday said that Morgan refused to press charges against the pair but warned that further theft of city property from the dam area would result in prosecution.

Russians Want to Shove U. S. Out of Berlin, Says Newsman

NEW YORK—(AP)—Wes Gallagher lives in what he calls "the world's biggest air-conditioned prison."

The prison is Berlin, Germany.

Gallagher believes that today it is the keystone of American prestige in Europe and that the Russians will exert renewed pressure to force the western Allies out of the German capital before the October elections.

This man Gallagher, who flew here to address the annual membership meeting of the Associated Press, is a real "newspaperman's newspaperman" — the kind the oldtimers say died out long ago.

Wherever free men in the world read a free press they have seen his byline— By Wes Gallagher." In the last eight years it has told the story of war and half-peace in 17 European countries, from the first foxholes to the latest conference table.

Here is the man behind the byline:

He is a big-shouldered, six-foot, stubble-headed, soft-hearted Irishman with the energy of a cub police reporter, and the mind of a diplomat. He peers at people from a pair of black eyebrows as bushy as John L. Lewis's in full bloom. He has only two facial expressions —a glowering frown while he's digging out an exclusive news story, a Cheshire cat grin when he puts it on the wire.

★

A foe of hypocrisy and stupidity —official or otherwise—Gallagher waged a steady battle of his own throughout the war against generals who tried to use censorship to cover up their blunders.

"In the next war I'm going to have you made chief censor so you'll have to do as I say," a three-star general once told him at a dinner party.

Gallagher worked him over with his eyebrows.

"I wouldn't serve under you," he said flatly. The general shut up. He was afraid one of his military guests might ask Gallagher why.

But Eisenhower, Simpson and "Tooey" Spaatz had a personal liking for Gallagher and respected his rugged judgment. When military commanders began asking his advice on whether a "hot" story was too ticklish to release, he said bluntly:

"Tell it. You don't own the news—whether it's good or bad. If you try to suppress it, it'll blow up in your face."

Covering world crises has become routine with Gallagher, but he believes the present Berlin situation may flare into war.

"The tension has died down a little, he said. "Only 50 of the 2,500 American dependents have asked to go home.

"The trouble is that the Russian leaders have told their people so often they won the war single-handed that they've come to believe in their own propaganda.

"Allied diplomats there don't believe the Russians want war now, but they're afraid the Russians don't know how to stop short of war.

★

"The Russians are still determined to get us out of Berlin. They probably will make another attempt after they get the harvest in. They want to have a free hand by the October elections, however, to be able to deal with the 2,000,000 Berliners who voted against communism last time.

"If we let the Russians run us out of town, our prestige in Europe will collapse. No European country would be willing to put up a fight."

How long could the present American garrison in Berlin hold out if some "incident" precipitated war?

"Perhaps six hours," he said. "But they might be important hours."

Just before Wes took off on his return flight to Berlin I asked him if covering eight years of world struggle had taught him anything.

"Only that nothing is more important than human freedom," he said.

Soviet Falsehoods Unchallenged, Says Gen. 'Wild Bill' Donovan

IS THAT SO?—In the May Atlantic Gen. Wild Bill Donovan, head of the O.S.S. in World War II, says in part: "Only now in America are we awakening to the existence of the hard fact that the Stalin challenge to our world is indistinguishable from the Hitler challenge.

"Many Americans (name two, General) who knew the situation and were familiar with Russian subversive activities besought our statesmen to inform the American people.

"Russia's malicious lies and distortions have gone unanswered and unchallenged."

Huh?

★

At Bradley's last night a diplomat, just back from Washington, said: "The State Department is running our Middle East with a firm hand."

"Zatso?" snapped Ted Mack. "What's the name of the firm—Standard Oil?"

★

It happened at a literary tea. One of the snobnoxious set (propelling himself by the tip of his nose) sailed over to a newspaperman busy drowning himself in a scotch mist.

"I see you like free liquor," smirked the stronger, "but I'll wager you aren't aware this party is being given for the author of 'The Outline of History.' Have you ever heard of him? His name's Toynbee."

"Soytinly," was the retort.

★

John Barrymore (once called John Barleycorn) was appearing in a flop play. The critics devastated it and him. He came to the second performance sold cober.

"I told you," roared the producer, "not to show up drunk!"

"If I wasn't," he said, "do you think I'd show up?"

★

The party was going full blast when a ham and his wife started a war. After 15 minutes of screaming at each other, she slapped him and announced she would go to Reno.

The hostess found him in a chair wringing his hands. "Is there anything I can do for you?" she asked.

"Yes," he sobbed, "phone any columnist!"

1,000 Pay Tribute To Msgr. R. C. Goebel

By DWYER CLAY

More than 1,000 members of St. Peter's Catholic church last night paid tribute to Msgr. R. C. Goebel for his 25 years' service given to the Mansfield church.

The 25th anniversary celebration opened with a dinner at the Mansfield-Leland hotel where 14 former assistant and resident Mansfield priests congratulated Msgr. Goebel on his record of service at St. Peter's church.

Rt. Rev. Msgr. W. A. Tobin, a close friend of Msgr. Goebel for nearly 50 years, addressed a gathering later at the church and praised the pastor for his service and guidance for the past quarter century.

He stressed Msgr. Goebel's advancement in teaching and missionary work while providing the school children of St. Peter's with both their grade and high school.

Msgr. Goebel came to Mansfield in 1923 and immediately began to reorganize the parish, plan the building of the schools and gain the respect and honor of all his parishioners.

"We have come a long way in these 25 years and have seen some lean financial years," Msgr. Goebel said. "Now that we have succeeded this far we should look ahead. We will progress even further. We must go ahead."

PROJECT PLANNED

Plans are now being made for a new modern high school and a convent for the St. Frances Sisters of St. Joliet, who have served the Mansfield church for almost 75 years.

Representatives of all school grades presented Msgr. Goebel with 25 U. S. savings bond from each class at St. Peter's to help build the new high school. The bonds were of $25 denomination.

A testimonial purse was presented to the pastor by J. B. Jurgens on behalf of members of the parish.

Rev. T. M. Downey introduced Master of Ceremonies John C. O'Donnell, who officiated at the celebration. Rev. Downey originated the plan for the anniversary celebration and kept it a secret from Msgr. Goebel until yesterday morning.

Congratulations were offered by Carl U. Graf and Mrs. Edward F. Davis, both members of the parish since Msgr. Goebel came to Mansfield.

E. L. Morgan, service-safety director, represented Mayor Roy W. Vaughn at the celebration and expressed the congratulations of the city to Msgr. Goebel for his service to the church and community.

Roy Eugene Shelton, 19, of 375 Springmill street, was named defendant in a $25,627.96 damage suit, filed today by Loran T. Payton, Ontario, in Common Pleas court.

Damages are sought in connection with the death of Noel Richard Payton, 16, son of the plaintiff, who was killed in an auto accident in Ontario on Jan. 27.

Payton charges that Shelton, driving a car which collided with the one in which the Payton youth was riding, was traveling at a "dangerous rate of speed" and failed to "exercise ordinary care on a road covered with ice and snow."

Payton seeks $25,000 damage for the "precuniary injury" and $627.96 for expenses of funeral services and burial.

Joseph A. Bayer is counsel for the plaintiff.

The Payton youth was a passenger in a car driven by Donald Lee Miller, 18, also of Ontario.

Boosts City's Power Pool

OPS to Build New $13,000,000 Unit

Mansfield's reserve source of electric power is going to be substantially increased. The Ohio Public Service company today announced that construction will begin immediately on a $13,000,000 generating plant at Dille's Bottom on the Ohio river near Bellaire.

This will be the third unit at what OPS calls "Burger Station". The two other units already have a capacity of 35,000 kilowatts each. The new unit will have a 100,000 kilowatt capacity.

In making the announcement, Joy A. Herbert, vice president and general manager of the company, explained that the new source of power will be tied in with the present system which includes the 19,000 KW plant at Melco, a 65,000 KW stand-by plant at Alliance, the Marion Reserve Power company facilities, a 10,000 KW unit at Warren, a 100,000 KW generating plant of the Toledo Edison company, and a 65,000 KW plant now under construction at Lorain.

Herbert said Mansfield uses approximately 35,000 kilowatts and that addition of the new Burger unit insures ample power reserves for Mansfield with anticipation that the city will continue its present rapid expansion.

The $13,000,000 construction announced today is in addition to the $37,000,000 improvement program revealed several months ago by OPS. Herbert was advised of the addition in a telegram from R. E. Burger, OPS president.

Urges Inquiries About Hog Market

Richland county farmers were urged today by Guy L. Taylor, chairman of the county Triple-A committee, to contact their commission men and market before shipping hogs.

Recent reports regarding opening of packing plants resulted in a glutted market and a sharp decline in hog prices, Taylor said. He added that advanced prices paid for pork indicate that hog numbers are not excessive and hog raisers can protect their prices by letting packer-buyers guide their marketing.

Syndicate Bid Called Best Offer

Firm to Give $2,261 Premium

County commissioners yesterday afternoon sold $700,000 worth of tuberculosis sanatorium bonds to a three-firm syndicate on a bid of 1½ per cent interest and $2,261.10 premium.

The syndicate includes Fahey, Clark and company, Cleveland, the Ohio company of Columbus, and the First Michigan corporation.

The county considered the syndicate's bid as the best of 13 opened yesterday noon at the court house.

The bonds were voted in separate issues of $300,000 and $400,000 at two elections to finance construction of an 84-bed TB sanatorium on State Route 39, southeast of Mansfield.

Second and third best bids received yesterday by the county commissioners were submitted by the Harris Trust company, Chicago, at 1½ per cent interest and $1,978 premium, and Otis and company syndicate, Cleveland, at 1½ per cent and $1,969 premium.

LONE MANSFIELD BIDDER

The only Mansfield bidder, Citizens National Bank and Trust company, bid only on the $300,000 issue and asked 1½ per cent interest and offered a $904 premium.

Bids offered on the bonds were considered "exceptionally good" by county officials and bond experts who said the attractive offers were made because the county is free of bonded indebtedness.

The county TB sanatorium building commission will receive bids May 19 on construction of the sanatorium. The commission is seeking a federal grant to help equip the sanatorium.

Tree Transplanters Warned To Leave City Shrubs Alone

Two Bloominggrove residents who admitted to police that they took eight young pine trees from the Clear Fork dam area to transplant to their own front yards will be given some pointers today on leaving city property where it lies.

The "pointers" will be delivered by Service-Safety Director E. L. Morgan. He summoned Albert Drake and Ruth Moffett to his office at 2 p. m.

Detectives traced them by the license numbers of the cars in which they allegedly transported the shrubs to their homes.

When questioned by detectives who saw the trees already transplanted in the front yards, the pair was quoted as saying they took the trees because they believed the area at the dam to be waste land, belonging to no one.

Detective F. Bruce Friday said that Morgan refused to press charges against the pair but warned that further theft of city property from the dam area would result in prosecution.

Aid Program Job Offered To Harriman

Truman, Hoffman Make Selection

WASHINGTON —(INS)— President Truman and European Recovery Administrator Paul G Hoffman have agreed on selection of Secretary of Commerce W. Averell Harriman as the Marshall plan "roving ambassador."

Harriman, who returned Tuesday night from the Inter-American Economic conference at Bogota, conferred with Mr. Truman Wednesday afternoon.

The commerce secretary, as chairman of the President's non-partisan committee on foreign aid, played a major role in bringing Marshall plan legislation into being.

A millionaire, an early friend of the late Franklin D. Roosevelt's New Deal, and a former United States ambassador to the Soviet Union and to Great Britain, Harriman has a long record of public service in the international field.

Harriman became secretary of commerce after the ouster of Henry A. Wallace in September, 1946.

Since last June, Harriman has served as chairman of the President's non-partisan committee on foreign aid. He supervised preparation of the report which was a key document in European recovery plan legislation

Security Tax Boost Urged

WASHINGTON —(INS)—Congress has before it today recommendations that the social security tax be increased from 1 to 1½ per cent and applied to the first $4,200 instead of the first $3,000 a year in earnings

The recommendations were made to the Senate finance committee by the advisory council on social security, headed by Edward R Stettinius jr.

The council urged a sweeping extension of the federal old age pension plan to cover twenty million domestic, farm and other works not now included

The British evacuation of Haifa was in full swing The army was holding positions only in the port area, Palestine's main gateway by sea, and at military headquarters atop Mt. Carmel overlooking the city.

Careful Food Selection Saves Money and Guards Health

NEW YORK—The average consumer can use many weapons to stave off rising food costs, say federal food authorities. But at the same time they warn that careless trimming of purchases may cut out foods needed for health.

Department of agriculture officials say that before trying to revise your food budgets you should learn what types of food are needed every day.

To get adequate vitamins, minerals, proteins, starches and fats, they say you need a diet balanced with leafy, green and yellow vegetables; citrus fruit or tomatoes; potatoes; fruits; milk, cheese and eggs, flours, cereals, meal; fats and oils; dry beans, peas and nuts, sugar; meat, poultry and fish.

Spokesmen for the agriculture department and for food chains and consumer groups agree that you can save sizeable sums if you consider how foods will be used before you buy them.

They cite the following as the most important examples.

Cheaper cuts of meat (commercial and utility grades B and C) are as nourishing as costlier grades. If used in stews or other dishes where they will be cooked for a long period they may be just as tasty.

Evaporated or dried milk is cheaper than fluid milk and can be used at least part of the time. Dried skim milk can replace whole milk in cooking or baking. It costs about seven cents a quart.

Try substitutes for meat. You get good proteins from dry beans, dry peas, lentils, cheese and peanut butter. "Variety meats" like beef, pork or lamb liver, kidneys, brains and heart often are low-priced but rich in vitamins.

Choose grown whole-grain or enriched bread, flour, cereals, meal for their extra vitamins and iron. Bread made with milk or milk served with cereals make a high-quality protein combination.

Leafy, green and yellow vegetables give good values in minerals and vitamins. Choose those in season, when they are usually lowest-priced. Learn to use the leafy tops of young beets and turnips. These, like kale, spinach, mustard and collards, are cheap sources of Vitamin A. They contain other vitamins and iron too.

Bob Lemon Slated For Detroit Tilt

CLEVELAND—(INS)—After a brief workout at the Cleveland stadium today, the Indians entrain for Detroit where they will meet the Tigers tomorrow in their first road game of the season.

Bob Lemon, the converted infielder-outfielder, is slated to go to the mound for the Tribesmen.

Manager Lou Boudreau announced that he would use the same lineup against the Bengals as he used in the season opener Tuesday, despite the not-so-good performance of Larry Doby.

Boudreau explained that Doby, the first Negro in the American league, had proved himself in the spring exhibition series with the Giants and that he was only a little nervous in Tuesday's contest when he struck out twice and dropped a fly ball.

CLARK LOOKS GOOD

If there were going to be any change in the tribal outfield, it certainly wouldn't be in left field, the spot occupied by Allie Clark.

Those fans who saw Allie perform in spring training were not surprised when Boudreau chose him as his starter in left field.

The fact that he delivered two timely singles and otherwise gave the appearance of a polished performer in his first test before a home audience likewise was no surprise, for Clark was tagged as one who undoubtedly would become a permanent fixture in the Cleveland outer garden.

Ohio State Lefty Blanks Wesleyan

DELAWARE —(AP)— Southpaw Dick Hess today was credited with a 6-0 victory over Ohio Wesleyan as Ohio State scored single runs in six different innings here yesterday.

Alex Verdova, who got three hits in four time up, sparked Ohio State to its seventh win in 11 starts this season. It was Ohio Wesleyan's seventh straight loss.

and Carl Furillo of the Dodgers.

FORCE IN PAIR

Bases on balls by Forrest Main forced in two Chicago runs in the ninth to help the Cubs defeat the Pirates in Pittsburgh, 6-3. Bill Nicholson and Andy Pafko hit home runs for the Cubs. Main had relieved Ernie Bonham in the ninth. Hank Borowy was the winning pitcher.

Bad pitching continued to plague the Yankees. The Washington Senators pounced upon Vic Raschi for five runs in the third inning and whipped the world champions, 6-3, in the Capital City. Gil Coan's three-run homer proved the decisive blow. Southpaw Mickey Haefner spaced nine hits for his first win.

TIE FOR FIRST

Detroit made it two in a row over the White Sox in Chicago, winning, 4-3, tying the Philadelphia Athletics for first place in the American league.

Stubby Overmire, who relieved starter Dizzy Trout in the seventh, pitched air-tight relief ball to receive credit for the Detroit victory. Earl Harrist, who replaced starter Orval Grove in the eighth, was charged with the defeat.

Sports Exhibit At High School

The annual sports exhibition of the Girls Athletic association of Senior High school will be presented at 8 p. m. tonight in the high school gym and swimming pool.

The show will feature a tumbling show, folk dancing, intramural basketball game and a volleyball game with a team from Galion. Following activities in the gym, a demonstration of swimming strokes, pageant and diving exhibit will be given in the swimming pool.

Banquets Slated

Two bowling banquets have been scheduled at Richland Recreation center. The Pioneer league will stage its fete April 27 with the Richland C league banquet listed April 29.
